KATIM

PROFESSIONAL SERVICES

SECURITY TRANSFORMATION FOR ACCELERATED SUCCESS

WHAT WE DO

We transform security for businesses and governments, driving enterprise-wide digital transformation. Our comprehensive services provide the most secure, reliable, and efficient path, ensuring accelerated agility and value. Additionally, we employ a human-centered design approach to craft and develop strategic concepts, prototypes, digital services, and product designs.

CREATE
Our Product Design Services offer local presence with global expertise. We craft tailored software or hardware to give you a competitive edge in your market.

INTEGRATE
Systems integration drives efficiency and innovation. We seamlessly merge technologies, applications, and processes to optimise your workflow.

SECURE
Our Secure Services ensure uniform and robust security for all network users, devices, and applications, with no exceptions or shortcuts.

DEPLOY
The Managed Services streamline infrastructure, development, and operations, fostering seamless collaboration and continuous integration.

SUPPORT
Our Support Services offer tailored technical assistance for businesses and individuals in the digital world.

PRODUCT DESIGN

At our core, we offer product design as a service, harnessing the power of human-centred design to craft strategic concepts, prototypes, digital services, and product designs tailored to your needs. Our iterative process involves continuous testing and refinement, ensuring that each step adds tangible value. Partnering with us means accessing a comprehensive suite of design services aimed at bringing your vision to life with precision and effectiveness.

RAPID PROTOTYPING
Creating physical or digital models of a product or design allows for validation of functionality and usability prior to finalisation, reducing the risk of costly mistakes and ensuring the product meets user needs.

DESIGN OPS
Our industrial designers, UX-designers, and innovation experts collaborate to translate digital opportunities into growth by innovatively addressing customer journey enhancements and user experience simplification.

DESIGN SYSTEMS
We develop a collection of reusable components, patterns, and guidelines to ensure consistent and user-friendly interfaces, enhancing the speed, quality, and scalability of your product's experience.

SECURITY SERVICES ▬

With us, you will be assured an unwavering commitment to the core principals of Zero-Trust, by thoroughly evaluating your security implementation and controls and strengthening them by uncovering hidden security loopholes, thereby enhancing the overall security posture of your ecosystem ensuring uniform and robust security for all users, devices, and applications without any exceptions.
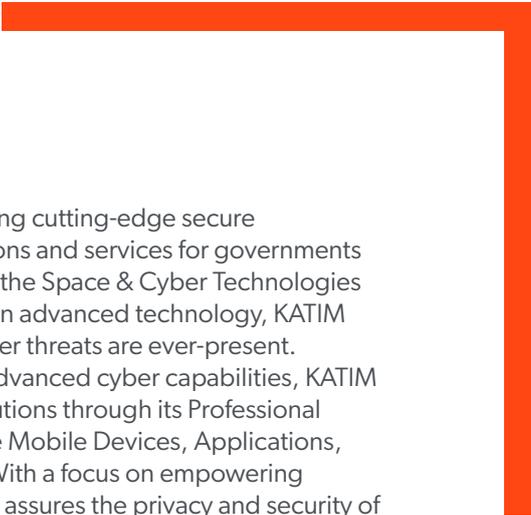

- Offensive Security Research
- Mobile Security Evaluation
- Application Security Assessment
- Infrastructure Security Assessment
- Communication Security
- Cybersecurity Advisory

MANAGED SERVICES ▬

With our unparalleled expertise, we specialize in optimizing infrastructure, development, and operations, ensuring seamless collaboration and continuous integration. Our services include infrastructure provisioning, advanced CI/CD pipelines, vigilant monitoring, robust security, and meticulous release management. In today's digital landscape, support professionals are indispensable, ensuring smooth operations by providing essential assistance when technology hiccups occur, helping employees navigate software, hardware, and network issues seamlessly.

- Continuous integration/Continuous deployment
- Monitoring and alerting
- Infrastructure as code
- Incident response
- Deployment framework
- Cloud migration and optimization
- Support services

KATIM

KATIM leads the way in developing cutting-edge secure communication products, solutions and services for governments and businesses. As a vital part of the Space & Cyber Technologies cluster at EDGE, a global leader in advanced technology, KATIM ensures trust in an era where cyber threats are ever-present. Meeting the rising demand for advanced cyber capabilities, KATIM provides robust, end-to-end solutions through its Professional Services, Networks, Ultra-Secure Mobile Devices, Applications, and Satellite Communications. With a focus on empowering organisations worldwide, KATIM assures the privacy and security of mission-critical information and communications. Headquartered in Abu Dhabi, KATIM drives digital advancement, cultivates next-generation talent, and pioneers innovative solutions to address customers› most pressing digital challenges.
