

HUNTER 2-S

**AUTONOMOUS
LOITERING
MUNITIONS**

The HUNTER 2-S is a fixed-wing, tube launched loitering munition, providing aerial strike capabilities at up to 50km from the launch point. The HUNTER 2-S autonomously flies to an intended target area and loiters while searching for targets. Once a target is identified, a remote pilot designates the target and activates engagement via man-in-the-loop control.
