ADVANCED EXPERTISE. EXCEPTIONAL RESULTS.

SURFACE-TO-SURFACE, ANTITANK, MAN-PORTABLE MISSILE SYSTEM

The MSS 1.2 AC is a surface-to-surface, antitank missile system that is lightweight and portable enough to be soldier carried. This high-kill weapon, which can be ground or vehicle fired, has both laser beam rider and command-to-line of sight.

Easy to use and featuring rapid set-up, the MSS 1.2 AC also is compatible with thermal imaging systems and delivers a range of 500 m to 3.2 km.

SPECIFICATIONS
