

DARK WING / DARK WING ER

FLEXIBLE PRECISION. LETHAL SURVIVABILITY.

HIGH-SPEED, COST-EFFECTIVE GROUND ATTACK MUNITION

The ADASI Dark Wing family is a high-speed, cost-effective surface attack munition offering standard (200-kilometre) and extended range (300-kilometre) ranges. Launched from air or ground, the precision-guided munition features a modular design for interchangeable seekers and payloads, enabling flexible ground attack missions on strategic targets.

With GPS anti-jamming, fully autonomous fire-and-forget operation, and visual-based navigation, Dark Wing offers enhanced survivability in GPS-denied environments. A parachute-recoverable trainer allows for cost-effective operator training.

SPECIFICATIONS

KEY FEATURES

- Multirole high-speed precision-guided munition
- Modular design – interchangeable seeker and payloads
- Air and ground-launched variants
- Parachute recoverable trainer
- Fully autonomous fire and forget system
- Visual-based navigation
- GPS anti-jamming system

TECHNICAL DATA

Dark Wing	
Dimensions (LxWxH)	(2.9m x 1.8m x 0.4m)
Range	200 km
Payload	25 kg, 50 kg, 100 kg
Altitude	>15,000 ft
