

HUNTER 5 & 10

AUTONOMOUS LOITERING MUNITIONS

The HUNTER 5 and HUNTER 10 are container-launched, fixed-wing, tube launched loitering munitions that provide aerial strike capabilities on a designated target up to 100km from the launch point. The loitering munitions fly autonomously to an intended target area and loiter while searching for targets. Once a target is identified, a remote pilot designates the target and activates engagement via man-in-the-loop control.

SPECIFICATIONS

	Hunter 5	Hunter 10
MTOW	Up to 50kg	
Payload	5kg	10kg
Total Flight time	150 minutes	
Cruising Airspeed	33m/s	
Operational Altitude	500 – 1,000m	
Engine	Gasoline	
Communication Range	Up to 100km	
Wingspan	Up to 3.6m	
Length	Up to 2.85m	
Max. Launcher Mass	Maximum of 5 tons	
Launcher Interface	20ft Standard ISO Twist Lock Interface	
Launcher Elevation	Up to 45°
