

FPV FUZE

VERSATILE DEPLOYMENT. ROBUST SAFETY.

A small orange horizontal bar.

ALL-MECHANICAL, IMPACT STAB-PIN FUZE

The ADVANCED CONCEPTS STAB FUZE is an all-mechanical fuze that can be used in various applications and on various platforms. It works on the principle of a stab pin that activates the stab detonator on impact.

The fuze incorporates multiple safety features, including a protection cap during storage and 'Remove to arm' clips at the arming stage and before launch. As well, an ARM/DISARM window indicates arming status.

SPECIFICATIONS
