

**HUNTER SP LOITERING MUNITION  
TECHNICAL SPECIFICATIONS**

**AUTONOMOUS  
SOLDIER-PORTABLE  
LOITERING MUNITION**

The Hunter SP is a ground launched soldier portable loitering munition that provides aerial strike capabilities on designated targets within 30 km from the launch point. With an endurance of 25 minutes, it can fly autonomously to an intended target area, where an operator can search for and designate targets via a portable ground control station.
