

STRIKE

RUGGED RELIABILITY. MISSION CONTINUITY.

AUTONOMOUS, FIXED-WING MEDIUM-ALTITUDE CARRIER

The ADVANCED CONCEPTS Strike is a rugged, medium-altitude fixed-wing carrier built for persistent tactical missions. With flexible payload options, modular payload release systems, and secure beyond-line-of-sight communications, this platform can support offensive, surveillance and logistics operations.

Designed for quick field turnaround and safe recovery, this UAV offers three-hour endurance, efficient cruise performance, integrated mission management, and hassle-free maintenance for mission continuity and ease of use.

SPECIFICATIONS

KEY FEATURES

- Flexible payload options
- Modular payload release systems
- Secure beyond-line-of-sight communications
- Integrated mission management
- Maintenance-friendly design

TECHNICAL DATA

Length	2.2 m
Wingspan	4 m
Endurance	3 hours
Cruise speed	40 m/s
Ceiling altitude	12,000 ft
Payload	20 kg (Single hard point)
Payload	10 kg (Dual hard point)
