ADJUSTABLE HEAVY-DUTY AIR CARGO PALLET

The ADVANCED CONCEPTS Heavy-Duty Air Cargo Pallet is a standardized solution engineered for transporting heavy loads with maximum stability. It provides a secure platform for loading, securing, and airdrop missions, and its modular design allows adjustable lengths from 8 ft (2.4 m) up to 32 ft (9.75 m).

With a load capacity ranging from 2,500 lbs to 42,000 lbs, this pallet system is ideal for air-transport and airdrop operations involving heavy equipment, mission-critical supplies, and military cargo aircraft.
