WE ARE AMMROC

KEEPING THE REGION FLYING

Since 2010, AMMROC has been a powerful supporter of the aviation industry within the GCC and international markets. We are the leading provider of maintenance, repair and overhaul (MRO) to the UAE Air Force, regional armed forces and an expanding global customer base.

Created to provide industry-leading Maintenance, Repair and Overhaul (MRO) services and integrated logistics support for military and civil aviation customers, backed by world-class facilities, engineering excellence, innovative technology, industry partnerships and a highly skilled workforce to deliver robust MRO solutions.

Our state-of-the-art facility at Al Ain Airport ushers in a new era – with a cutting-edge sustainment centre designed to ensure fleet readiness at the highest quality standards. As our new site is uniquely positioned in the South Asia, Middle East and North Africa (SAMENA) region with a proximity to Europe and Asia, we are truly a regional asset that serves as a global resource. We continue to expand the scope of our offerings and push the very boundaries of MRO services.

EDGE

ABOUT EDGE

We live in an accelerating world. Characterised by uncharted frontiers, the future is empowered by advanced technology that is galvanising a new breed of players. At the edge of these frontiers exist no limits – where boundless opportunities await.

Transforming how we live, and ensuring a more secure future, is what we do. We are EDGE; and our mission is simple: To bring innovative technologies and services to market with greater speed and efficiency.

We will not only revolutionise the defence industry, but we will change its fundamentals. We are the vanguard of the next-generation, of a reimagined sector. We prioritise technology in a non-binary world and seek universal solutions. We work with everyone: big or small, start-up or established, local or global.

We are EDGE. We enable a secure future.

STATEMENT OF PURPOSE

To be the regional, world-class centre of excellence by providing military aircraft sustainment solutions in MRO and upgrade services.

At the forefront of aircraft aftermarket industry, AMMROC ensures the UAE and other regional Air Forces maintain operational readiness, airworthiness, and highest level of safety on various rotary and fixed-wing aircraft platform types.

MISSION

POSSIBLE —

**MINIMISING TURNAROUND TIME
MAXIMISING AVAILABILITY**

AMMROC provides comprehensive aircraft MRO services, offering O and I level maintenance, depot level inspection, repair and overhaul for engines, components and airframes including painting, engineering solutions and parts supply, as well as tailored modification and upgrade services.

Meeting the most stringent international quality standards, we ensure optimal fleet readiness through flexible contracting models, with exceptional turn times, reduced AOGs and lower rework costs.

**TODAY WE ARE ONE OF THE THE WORLD'S ONLY
THIRD-PARTY MRO SERVICE PROVIDERS THAT HAS
THE EXPERIENCE AND CAPABILITY IN EXECUTING A
NATIONAL AIR FORCE FLEET-WIDE PERFORMANCE
BASED LOGISTICS (PBL) PROGRAMME.**

BUILDING FOR THE FUTURE AT AL AIN —

Our brand new, state-of-the-art MRO facility at Al Ain in the Emirate of Abu Dhabi is more than our new headquarters and training academy: it is the hub of one of the world's most advanced MRO operations. Built to international aerospace standards, it features a modular design to enable future expansion. The Al Ain complex includes four multi-purpose hangars, over 30 engineering back shops and a dedicated climate-controlled paint facility.

Focused firmly on the future, our new Al Ain complex offers one of the region's largest military and civil MRO hangar capacities, in addition to our dedicated Black Hawk "nose-to-tail" depot with LRUs inclusive of blades and transmissions, engines and aircraft sub-systems.

COMPREHENSIVE SOLUTIONS TO KEEP YOU FLYING

AMMROC delivers advanced military MRO services from its cutting-edge Al Ain facility and is positioned as a one-stop-shop integrated fleet sustainment hub for the region.

AIRFRAME SERVICES

We provide unrivalled airframe MRO services for a diverse range of rotary and fixed-wing aircraft platforms. We have the distinction of being the only Lockheed Martin-certified C-130/L-100 Service Centre in the Middle East and North Africa.

ENGINE SERVICES

With expertise on turbo props, turbo fans and turbo shafts; fighter jet engines; auxiliary power units (APU); and quick engine change (QEC) components, our capabilities include module replacements, modifications, complete piece part disassembly, repair, replacement, overhaul, re-assembly, testing and troubleshooting.

COMPONENT SERVICES

Our extensive component repair and overhaul capabilities are backed by strategic relationship with major defense manufacturers supporting us with shorter parts lead time and turnaround time. In addition to our dedicated Black Hawk nose-to-tail components capability, our shops are equipped with universal type test equipment across hydraulics, fuel, electromechanical and pneumatics systems for multiple aircraft types.

MODIFICATIONS AND UPGRADES

At AMMROC, we undertake major and minor modifications and upgrades for a variety of rotary- and fixed-wing aircraft, all tailored to our customers' operational demands, and all to the highest industry standards.

BLACK HAWK INTEGRATION

As the world's only authorised armed Black Hawk integrator, we work in collaboration with Sikorsky (A Lockheed Martin Company) and our customers to deliver advanced expertise in modifying the Black Hawk into a fully mission capable multi-role combat helicopter.

ENGINEERING SERVICES

We support our customers across numerous engineering design aspects, including basic tooling design, complex aircraft repair development, and maintainability and reliability services. Our field service engineers help address aircraft issues wherever and whenever the need arises.

TECHNICAL SUPPORT SERVICES

With continually evolving capabilities, we provide an entire suite of advanced technical support services, in areas such as field services, supply chain management, technical training, information technology, and program management.
